

MSK-SC-3020-P064 Standard sales specification for final product

V 2/05.11.2015.

**Acetic acid, CH<sub>3</sub>COOH, Foodstuff, 80%**

Product Code	CAS	Index	REACH reference
90028	64-19-7	607-002-00-6	01-2119475328-30-0018

Properties	Value	Test method
Appearance	clear, colourless liquid free from suspended matter	visual
Assay (CH <sub>3</sub> COOH), % (w/w) <sup>Ⓣ</sup>	80 ± 0.5%	SRPS H.B8.200
SRPS - Serbian standard/MSK - MSK method		
Acetic acid that conforms to this specification is produced by dilluting acetic acid of the quality defined by the specification MSK-SC-3020-P045, in conformity standard EN 13189.		

**Note**

The product is controlled in own laboratory against to all parameters declared. Delivery of product is accompanied by certificate of quality and certificate of quantity issued by accredited inspection entity as independent party. Arbitration sample is kept by inspection entity for the period of two months after delivery date. When the loading is carried out in the MSK transportation vehicle, certificate of quality relates to the quality of product in the transportation vehicle. Otherwise, the certificate relates to quality in storage tank from which a product is taken. The complaint is recognized only when the testing is carried out before unloading and in compliance with test methods accepted by the buyer and indicated in this specification. Certificate of quantity is issued on the basis of measurement performed in MSK on calibrated mass measuring means. Measurement uncertainty is estimated to ±0.5% of mass declared.
